SPECIAL NOTICES.

Holloway's Pills.—The Pills prepared by the celebrated Professor Holloway, are one of the greatest blessings ever discovered, for the alleviation of certain departments of human misery. Combining as they do some of the choicest offerings of the Vegetable World, concocted under the supervision and knowledge of a highly scientific Gentlemen, it is not at all strange that they have effected the most astonishing Cures. For any of that numerous class of complaints, growing out of an impure state of the blood, the Pills are marvellously happy and thorough in their action. There are few maladies which if treated early, will not be nipped in the bud by this Medicine, while for not a few, it is a positive specific.—[Boston Bee.

JOHN C. SYMPSON is now traveling through all the counties in Tennessee west of Knox disposing of the Right to use S. C. Mcender-hall's Columbia Bagging Looms, will take pleasure in receiving subscriptions and advertisements for this Paper.

WE DAILY HEAR of the most astonishing cures being effected by that great and popular medicine, H. G. FARRELL'S ARABIAN LINIMENT, and we can truly say, from our own knowledge, that no medicine ever discovered has performed the same wonderful cures, that it has, both in man and beast and it is equally good for both, which makes it so truly valuable. It is therefore hailed by the suffering as the greatest blessing of the age and no one would ever allow himself to be without this sovereign balm, who had once witnessed its magic power over disease, and its wonderful potency in relieving pain however severe, in a few minutes' time. We earnestly desire you to call upon the agent, who will furnish you, free of charge, a small book containing, besides other valuable information, a large list of certificates from many of the most respectable persons, of cures effected by this celebrated medicine which surely are enough to convince the most sceptical of its transcendent virtues. We notice several certificates of rheumatism cured after the patient had suffered every thing but death for five to twenty years. Also cases of paralysis, or loss of use of the limbs, where the flesh had withered, leaving nothing but a spectacle to their FRIENDS LOOKED UPON THEM APALLED while physicians pronounced them BEYOND ANY HUMAN EFFORT to relieve. It is the most efficacious remedy known for burns, sprains, wounds, bruises, chilblains, neuralgia, toothache, bites of insects and reptiles, sore throat, sore or weak eyes, tumors, sun pain, etc., etc., and is used with unbounded success in most of the ailments of horses and cattle, such as swellings, farcy, sprains, bruises, wounds, stiff neck and joint lameness, swellings, galls or chafes, or eyes, partial blindness, etc. It used in the beginning of febrile, pol-vell, ringbone and spavin, it will invariably stop their further progress. Every family should keep this valuable medicine on hand, ready for any emergency.

Look out for Counterfeits.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because having the name of Farrell, many will buy in good faith, without the knowledge that a counterfeit exists, and they will only discover their error when the spurious mixture has wrought its evil effects. The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale Druggist, No 17 Main st., Peoria, Illinois, to whom all orders for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's thus—H. G. Farrell's—and his signature on the wrapper, all others are counterfeits. Sold by Dr. W. L. White, Loudon; Mr. Rose Wrightsville; Dr. Cannon, Madisonville; and by regularly authorized agents throughout the U. States.

Price 25 and 50 cents, and \$1 per bottle.

Agents wanted in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c. [34-4]

The best evidence that can be adduced in favor of the efficacy of Hoodland's German Bitters prepared by Dr. C. M. Jackson is the unexpected demand for them from all parts of the Union; and although there may be many compounds prepared and represented as being worthy of a liberal patronage, yet we feel constrained to remark, that the vast number of testimonials with which the worthy doctor has been honored, by persons of the highest character and respectability, who found it necessary to have recourse to his preparation, is testimony sufficiently conclusive, that a more effectual remedy for the almost insupportable relief of those afflicted with that dreadful malady, dyspepsia, has never been discovered.

OBITUARY. Departed this life, Rachel Johnston consort of James Johnston, Esq., in the 71st year of her age, near Loudon, Tenn., on Saturday night the 12th inst., after an illness of about six weeks. Her disease was flux or bowel complaint until the last day when it assumed more of the appearance of the disease called Cholera. She had been a member of the Presbyterian Church about fifty years during which time her daily walk and conversation was such as to inspire confidence in all with whom she was acquainted, that she was what she professed to be, a child of God. In visiting and administering to the sick she had but few if any equals. Her husband with whom she lived near fifty years has lost a faithful and affectionate wife; her children have lost an indulgent and kind Mother; her neighbors have lost a neighbor whose place will be difficult to fill, and the Church has lost a member than whom but few have acted their part better. But their loss is her eternal gain. She has gone home to that rest prepared for the people of God, to reap the reward promised to the faithful. Although her influence in life was hard to excel, yet she in her death we hope, by her precept and examples exerted an influence that will never lose its effect until all her relatives will be happily converted to God. She appeared not only to look on death with indifference, but she looked beyond death, and with an unwavering faith claimed Heaven as her reward. Truly the sting of death had nothing to do with her; the tranquillizing name of sleep was more calmly. Who would not live the life of the Christian that their last days may be like hers.
